Re: Application for Change under Ground Water Permit No. G3-28882(B)

Dear Mr. Bryan:

In response to your request, you are hereby granted an extension to complete construction for the reason(s) below:

Complete construction of the delivery system from the authorized source well.

The new deadline to submit your *Construction Notice* is **July 1, 2013 or until the Application for Change is acted upon, whichever is first.**

Additional information is required to evaluate future actions to evaluate further extensions. The permittee is required to identify all unauthorized wells, decommission all unauthorized wells currently serving the development and transfer the uses over to the authorized well. If the decommissioning has not been completed, the Permittee is required to submit a detailed plan identifying all unauthorized wells, and identify a time to the Department as to when this will be completed. If the transfer of uses is complete, provide copies of all decommissioning notices and well logs to the department. Further development of the project from these unauthorized wells may be subject to Cease and Desist Orders and or penalties.
